MAHCON (PTY) LTD was formed in 2017 with the aim to operate in the construction project management consulting, Civil Engineering sector and supply of Hospital technology equipment, this was after identifying the need for black owned companies that has experience in the construction sector to emerge.

The company is 100% black owned and has got back up staff that has been in the field of Mining and Construction sector throughout the country and possesses the necessary skills to execute complex projects.

We at MAHCON pride ourselves with professionalism and skills sets that have been acquired throughout the years. Our philosophy is that you can rely on our ability to bring you a quality product that is done within time and budgets, and those are the parameters we measure ourselves within for our client.

Meet the Founder

William Mahobja

Mr William Kleinboy Mahobja

is the founding member of MAHCON (PTY) LTD; He has been involved in the mining and construction sector for the past 20 years and is qualified as a Mining Engineer from University of Johannesburg. He has also attended the Construction Management Programme in Stellenbosch, he is also registered a professional Technician with ECSA and is also a member of South African Institute of Civil Engineering (SAICE) and he is also registered with SACPCMP as a Professional Construction Manager.

He has attended various construction courses from Estimating using CCS to various forms of Contracts in construction, project management. He has executed multidisciplinary projects form roads & bulk earthworks, concrete structures including bridges, water, sewer & stormwater reticulation, from private clients, provincial departments, TRAC & SANRAL as the clients.

CONSTRUCTION PROJECT MANAGEMENT CONSULTANT

We offer an overall overview of the projects from mediating between stakeholders being the contractor, community and client, we assist the local SMME and the contractor in terms of works programme, costs, budgets, cashflow and revenue earnings.

Over the number of years, we have noted the skills shortage on projects specifically where there's involvement of local SMME's on projects, we bridge this gap by assist both parties to prevent delays on projects.

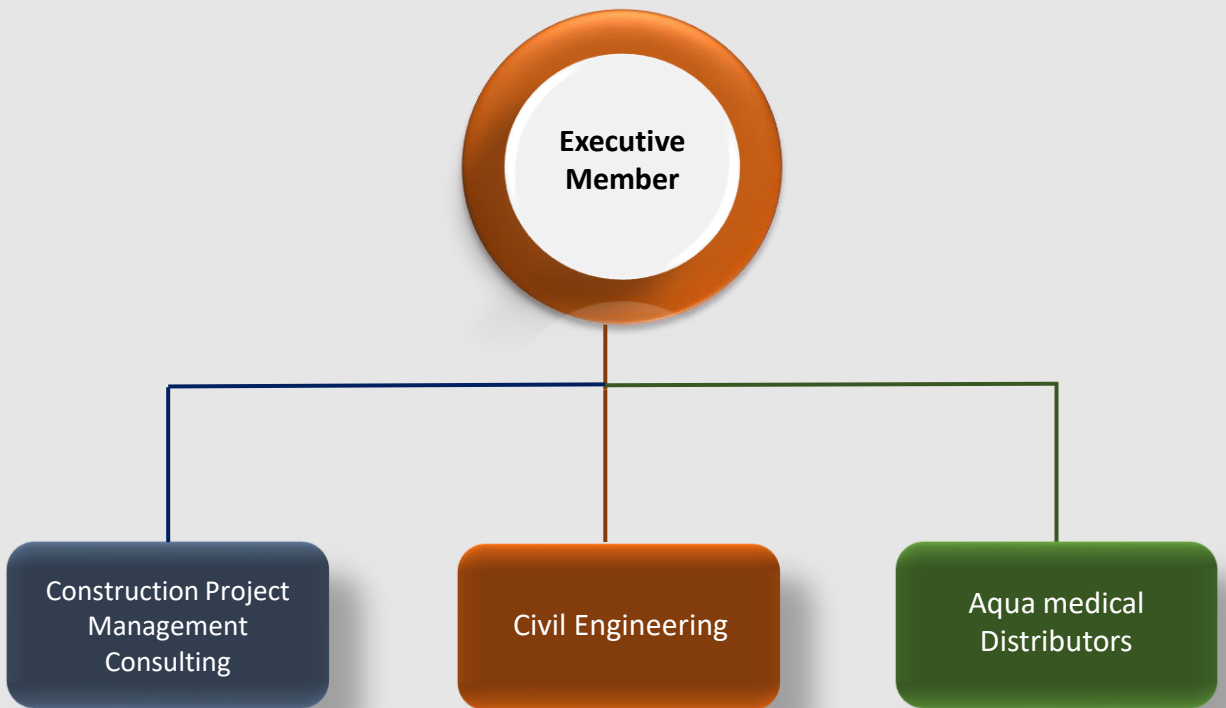

SUPPLY OF HEALTH TECHNOLOGY EQUIPMENT

We supply the hospital technology equipment on the newly built government Hospitals and Clinics

CIVIL ENGINEERING

- Roads & Earthworks
- Concrete Structures & Bridge Construction
- Water, Sewer & Stormwater Reticulation
